In the **experimental section** prints (PSA PPD-C), digital files (PSA PID color) all techniques, old and well known as well as new (digital imaging) are very welcome. We want to present the very best in the field of unusual photography. Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. We like to see pure creativity, real contemporary photography of an altered reality. Anything is possible! **We are searching for surprising pictures, full of idea, individuality and creativity, surreal compositions and digitally made eyecatchers.** Show us the **"impossible possibilities"**, show photos that set us thinking. Let us see images not seen before! We desire for new interpretations, for the art of photography, here you'll face no limits. Use the technique of classic photomontage as well as computer manipulation. Let your phantasy take its course!

#### **PSA Photo Travel Definition (PSA PTD)**

A Photo Travel image expresses the characteristic features or culture of a land as they are found naturally. There are no geographical limitations. Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted. Close up pictures of people or objects must include features that provide information about the location. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to greyscale monochrome. Other derivations, including infrared, are not permitted. All images must look natural.

In our **special theme „landscape“** (color prints (PSA PPD-C), digital files (PSA PID color) we like to see fascinating prints and digital files from **the most beautiful landscapes from all over the world**. With or without people, at any weather condition, at the very best light. Sea / waterscapes, cityscapes – whatever you like! Show us the beauty of the world we live in!

### NOT RECOGNIZED BY PSA

In our **special theme "portrait"** we like to see portray studies in prints and digital files from people of all colours, races, religions. In our **special theme "architecture and sights"** we are searching for spectacular prints and digital files of architecture full of idea and creativity. Most important: show architecture, that is in harmony with the surrounding landscape and environment. See well known places under a new perspective. We are not interested in "postcard esthetics", **we want modern and contemporary images of modern and contemporary architecture**. Bring architecture and sights in contrast to people, landscape, nature and environment and produce connections between people and architecture/sights.

In our **special theme "emotions and human relations"** we like to see prints and digital files covering the whole range of human feelings: **luck, hate, annoyance, joy, sorrow, mourning, amorousness and love, envy, jubilation, enthusiasm, etc.** In addition to this enter **images from all different types of human relationships**, between man and woman, between young and old, between people and animals, people and things. Show human relations in lucky and unlucky situations.

In our **special theme "all around bread - bakers, bread, fields & grain"**: Concentrate on the work of bakers. Catch the emotion associated with consuming bread. Bread creates work. From the farmer to the miller, from the baker to the trader. Photograph corn- or rice fields in wind & weather, also concentrate on the process of harvesting. Most important: the bakery between tradition and modern technology. One should be able to feel the heat at the bakery, the hard work of bakers, their craft and the result of their performance. The images should be authentic and real from the bakery up to bread traders at traditional markets.

In our **special theme "sports, dynamics, movement"** show all kinds of sports, movement and action. Let us feel the speed, the power, the dramatics of sports. Let us see anything that is moving or use the possibilities of photography to suggest movement. Show prints and digital files that **present movement and speed to the viewer**, for example by moving the camera or by using long term exposures. Everything that moves is in the center of interest. From snail to rocket! **Also concentrate on sports and action shots and deal with the wide theme of internet and high-speed communication**. Especially images all around the use of computer in our dynamic high tech world may be entered.

In our **special theme "seasons & weather"** we like to see stunning prints and digital files dealing with the change of seasons. Spring, summer, autumn and winter. Show landscapes, cities and people in the different seasons. **Try to catch weather situations like fog, rain, storm, snowfall, heat and dazzling sunshine.**

In our **special theme "trees and woods"** we expect to see prints and digital files, which deal with the **impressing beauty of trees**. From "bonsai to mammothtree", from a single oak tree to endless dense woods. Show the woods all over the world as a place of wilderness and as a refugium to flee our hectic modern times but also show the importance of trees (timber/lumber) as raw material. Concentrate on trees in extraordinary light situations.

In our **special theme "children of the world"** show children in their own world in prints and digital files taken from all over the world. Different races and cultural backgrounds are in the focus of this theme. **We look for children at play, in school, dealing with their own problems or simply enjoying their youth with all its freedom and tasks.** Live photography or arranged shots, taken outdoors as well as studio photography may be entered. Children photography far away from the family album is the aim of this contest.

**Special theme "colour ecstasy":** The seeming endless spectrum of colours is an everlasting challenge for photographers. Show the fascination and the intensive, individual impression of various colours. We are searching for harmonic colour compositions as well as for colour contrasts. You can enter any kind of theme (landscape, people, sports, etc.) in this special theme, but the images entered need to have a **strong colourful impact** to qualify for an award.

In our **special theme "China"** the country and its people are in the center of interest. **Let us look behind the secrets of China, China's daily life, its beauty and its way of life.** Catch people, landscape, events. Show modern China as well as typical and traditional China. Let us have a mixture out of live photography, outdoor photography as well as studio works. **Entrants from China may enter simply their best prints and digital files to reflect the Chinese standards of artistic photography. Catch China at its best with your camera.**

## THEMES DISORPTIONS - 20. SPECIAL THEMES CIRCUIT - ADDITIONAL THEMES 2021

In the special theme **"Self portrait"** we are looking for the ultimate self-portraits. We want our participants to know better. Not the classic "selfie" is on our shortlist, more than this we call for imaginative, clever self-dramatizations. From willful self-portraits to pictures of yourself in the countryside, among other people up to nude images and the presentation of your own obsessions and passions: the range of possible images to enter in this theme is broad. What moves photographers, what are their priorities? Show us your favorite pictures of yourself.

Special theme **"Streets, roads, paths":** From A to B. Without roads and paths our civilization would be non thinkable. In this special theme we are looking for the most photogenic streets and roads in the world. In the best light, surrounded by beautiful landscapes, steep mountains or the jungle of the city. Show the life on and along the road, the traffic, the hustle and bustle of everyday life when people are traveling. From the highway to country roads up to the lonely path: the journey is the destination.

For the special theme **"Mountains"** we expect pictures that capture the magic of the mountains. Looking forward to rugged cliffs, towering mountain peaks, snowy ridges, steep peaks. Landscape photography under the extreme conditions of high mountains and mountaineering images par excellence. Pictures of mountains and their inhabitants. Let us feel the fascination of mountains!

In the special theme **"African wildlife"** it is important to capture the amazing wildlife of the African continent. A photo safari on elephant, wildebeest, buffalo, rhino, lion & Co. Africa and its wildlife paradises in the best light. We hope to see the most exciting moments of the big game photography.

In the special theme of **"Sunrise and sunset"** the stunning beauty and mood of sunrise and sunset shall be preserved by the camera. People, landscapes, trees, water and animals in the warm light of the rising or declining sun. Shadows, silhouettes, light fringes: this all captures the magic of the fleeting moments of a sunrise or sunset.

Special theme **"Seen from above":** The world seen from above: new images and perspectives are needed here! Images taken with the help of drones and quadcopters are innovative and brand new applications for photography. However, we are interested in the views from airplanes and helicopters, from mountains, peaks and skyscrapers down as well. Photograph mountaineers in risky situations from above, get people, architecture, nature and the environment in the center of interest. Creativity is needed: the most unusual perspectives are in the focus of this special issue.

In the special theme **"People and pets"** we are looking for images dealing with friendship and relationship between animals and people. Pets are our faithful partners, companions and comforters. Pets not only make people happy, they are also important for our health. Catch moments of affection or play with your camera. Pets are our best friends – let us get this feeling!

Special theme **"Macro photography":** All that is small is, here stand out tall. Insects, plants, details: we are looking for the very best macro shots. Discover for us the world of small and tiny things. Make visible what we couldn't see with the naked eye: that's the point in this topic.

In the special theme **"Night images and artificial light"** we are looking for pictures taken between dusk and dawn, or resulting from the use of artificial light. Night scenes shall represent lit objects, can cover long term exposures, show landscapes in the last light and present the night life of people. Anything happening during the night or what is illuminated by artificial light is in the focus of this special theme.

The special theme of **"Austria at its best"** is dedicated to this country in the heart of Europe. Catch the cities, the people, the gorgeous landscapes, the nature, the mountains, the lakes, the whole range of beauty of this country in the Alps and along the river Danube with your camera. We expect both, classical motifs as well as and new viewpoints of well known sights and places. Austria and its people are in the centre of interest. This theme is prepared for Austrian photo enthusiasts as well as for tourists from all over the world.

Special theme **"All about cycling and bikes":** Fitness & Fun are the focus of this special theme. Cycling is a pleasure for young and old. From the wheel of toddlers to the e-bike of the elder generation: The bike as a companion through life. Cycling is an experience for the whole family. Cycling is - rationally operated - healthy. Bicycling has many aspects: gently "experiencing" the landscape, rolling from A to B on foot, enjoying the pleasure of moving together in a group, comparing with others, experiencing a healthy balance with lots of exercise in the fresh air. Cycling is also about meeting friends, communicating and maintaining relationships around the wheel. But cycling also has other dimensions. Off the paved roads, across the country, with the mountain bike feeling gravel and dust underneath. Sweaty climbs, fast descents, but also the first-hand experience of mountains, lakes- or forests: all this combines cycling on the other side of the road. And of course do not forget: cycling as a sport, cycling with speed and dynamism.

Special theme **"Lockdown – my best covid19 images":** Never before the entire world had to face such an extraordinary situation as in 2020. Lockdown! We all were locked in at home, worked from home office, wearing masks, suffered from the lack of social contacts, faced loneliness and anxiety, saw the situation in the hospitals and admired the heroes of the crisis. Show us your personal view of the lockdown 2020. We expect special photos that are shaped by the fight against Corona.

Special theme **"Fine feathers make fine birds":** The original function of clothing to protect and keep you warm is no longer applicable in the 21<sup>st</sup> century. Today clothes and fashion are a status symbol. Clothing is a sign of individual demarcation, and what you wear defines your social standing. Whether a uniform or leisure wear, clothes make the man. Does what you wear change a person? Where is the borderline between being and seeming to be? Art photography can offer answers to these questions.

Special theme **"Series and sequences":** we expect series and sequences in prints or digital files consisting out of a minimum of 3 up to a maximum of 12 images. Each participant is allowed to enter 2 different series/sequ. Show the lapse of time, illustrate changes and present simply anything what can be illustrated best by a succession of pictures. Also images used for a calendar project of yours are very welcome.

**In each special theme 5 medals will be given, in addition to this cash awards of totally US\$ 25.000 / € 20.000 are waiting for the winners.** The organizers reserve the right to publish gratis accepted entries in accordance with point 6. of these general conditions.

Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final. In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition organizers may carry out reasonable measures to verify that:

- a) the images are the original work of the entrant and
- b) the images comply with the rules and definitions as set out in these Conditions of Entry.

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the exhibition organizer's evidence by a set deadline. Entry in this exhibition requires exhibitors to agree to this and other PSA policies

The content of images must comply with these General Conditions and with the Division and Section definitions listed in these conditions.
